ADONSOU KEKELI DIANE

+228 96 28 50 94 | dianeadonsou9@gmail.com | LinkedIn | GitHub | Lomé, Togo

Professional interests: Business Process Management, Digital Transformation, Information Systems, Software Architecture.

EDUCATION

Bachelor of Science in Software Engineering **Jul 2026**

Centre Informatique et de Calcul / Université de Lomé

Relevant Coursework: Software development, Functional analysis, Object-Oriented Programming, Database systems, Applied mathematics, Data structures, Information systems engineering.

EXPERIENCE

Applications Developer, digi.job **Jan 2026 - Present**

- Gathered and analyzed business requirements from government ministries.
- Mapped and modeled business processes using BPMN 2.0.
- Designed and deployed dynamic forms to digitize public services.
- Customized Odoo ERP workflows integrated with Form.io, Camunda and REST APIs.

Applications Developer Intern, digi.job **Jul 2025 - Jan 2026**

- Engineered an internal knowledge base, a wiki, to centralize company processes, best practices, and technical documentation as a Bachelor's capstone project.
- Mapped, modeled, and digitized core public administration workflows using BPMN 2.0 and Total.js, creating tailored digital service solutions for two public ministries.

Web Developer, Ecole Polytechnique de Lomé **Jul - Oct 2024**

- Architected and developed the core backend infrastructure for the school's information system.
- Implemented a secure authentication module featuring comprehensive role and access management (RBAC).
- Collaborated with the frontend team to integrate APIs and optimized user interface design.

Mobile Developer Intern, Digital Inspiration **May - Jun 2024**

- Developed mobile app interfaces for Android using Kotlin and Jetpack Compose.

PROJECTS

- **Family Estate & Asset Management Platform:** Web application engineered to streamline inheritance management and joint property administration through transparent financial tracking and role-based access.
- **Library Management System:** Full-stack management platform built for a local NGO to automate book inventory, lending tracking, and user records.
- **Hack4Peace Chatbot (UNFPA Hackathon Finalist):** Prototyped an interactive conversational agent raising awareness on the Youth, Peace, and Security (YPS) agenda and Gender-Based Violence prevention.

SKILLS

Analysis/Modeling: UML, Merise, BPMN 2.0

Programming: Python, FastAPI, Django, JavaScript, Next.js, Java, C++

Databases & Infrastructure: MySQL, PostgreSQL, Git, Docker

Additional tools: Odoo, Camunda, Form.io

AWARDS - VOLUNTEERING

3rd Place in Women's category – 228 Code Challenge (ATD) **Mar 2024**

PrODDige international program – SCD (France) **Oct 2024 - Jun 2025**

One of the two Togolese candidates selected as International Reciprocity Volunteer.

Community engagement: Active member of Women Tech Makers Lomé, GDG Lomé, CNCG Lomé, Tdev and NGOs.

ADDITIONAL INFORMATION

Languages: French (Native), English (Fluent)

Interests: Human psyche, neuroscience, astrophysics, manga

Strengths: Autonomy, teamwork, organizational skills, adaptability
